#### **A 37.0 h SIEG 2020**

SIEGELBERG, Mira L., 2020. *Statelessness a modern history*. Cambridge, Massachusetts : Harvard University Press. ISBN 978-0-674-97631-3. « Two world wars left millions stranded in Europe. The collapse of empires and the rise of independent states in the twentieth century produced an unprecedented number of people without national belonging and with nowhere to go. Mira Siegelberg's innovative history weaves together ideas about law and politics, rights and citizenship, with the intimate plight of stateless persons, to explore how and why statelessness compelled a new understanding of the international order in the twentieth century and beyond. In the years following the First World War, the legal category of statelessness generated novel visions of cosmopolitan political and legal organization and challenged efforts to limit the boundaries of national membership and international authority. By linking the emergence of mass statelessness to a revolution in legal consciousness, Siegelberg shows how the rights regime created after the Second World War ultimately empowered the territorial state as the source of protection and rights, against alternative political configurations. Today, more than twelve million people are stateless and millions more belong to categories of recent invention, including refugees and asylum seekers. As *Statelessness* makes clear, understanding the ideological origins of the international agreements that define approaches to citizenship and non-citizenship can better equip us to confront the dilemmas of political structure and authority at a global scale »-- Provided by publisher

#### **A 40.2 g DEAJ 2019**

ZHU, Guobin, 2019. *Deference to the administration in judicial review comparative perspectives*. Cham : Springer Nature Switzerland. Ius comparatum - global studies in comparative law Volume 39. ISBN 978-3-030-31538-2.

### **A 60.1 g HABL 2020**

ARTZT, Matthias et RICHTER, Thomas, 2020. *Handbook of blockchain law a guide to understanding and resolving the legal challenges of blockchain technology*. Den Haag : Kluwer Law International. ISBN 978-94-035-1763-6. Handbook of Blockchain Law provides an overview of the key features and functionalities of blockchain technology in a legal context in a remarkably descriptive way. Blockchain has become attractive to companies and governments as it promises to solve the age-old problem of mutability in

transactions ? that is, it makes falsification and recalculation impossible once a transaction has been committed to the technology. The systematic and comprehensive approach set forth in this book, including coverage of existing relevant law in various jurisdictions with a particular focus on European law and US law and practical guidance on how to tackle legal issues raised by the use of blockchain, ensures a one-stop-shop reference book for anyone considering blockchain-based solutions or rendering advice for them

### **CA/GB 16 g ELSK 2020**

ELSKY, Stephanie, 2020a. *Custom, common law and the constitution of English renaissance literature*. New product. New York : Oxford University Press. Law and literature. ISBN 978-0-19-886143-0. « Custom, Common Law, and the Constitution of English Renaissance Literature argues that, ironically, custom was a supremely generative literary force for a range of Renaissance writers. Custom took on so much power because of its virtual synonymy with English common law, the increasingly dominant legal system that was also foundational to England's constitutionalist politics. The strange temporality assigned to legal custom, that is, its purported existence since "time immemorial," furnished it with a unique and paradoxical capacity - to make new and foreign forms familiar. This monograph shows that during a time when novelty was suspect, even insurrectionary, appeals to the widespread understanding of custom as a legal concept justified a startling array of fictive experiments. This is the first monograph to reveal fully the relationship between Renaissance literature and legal custom. It shows how writers were able to reimagine moments of historical and cultural rupture as continuity by appealing to the powerful belief that English legal custom persisted in the face of conquests by foreign powers. Custom, Common Law, and the Constitution of English Renaissance Literature thus challenges scholarly narratives in which Renaissance art breaks with a past it looks back upon longingly and instead argues that the period viewed its literature as imbued with the aura of the past. In this way, through experiments in rhetoric and form, literature unfolds the processes whereby custom gains its formidable

and flexible political power. Custom, a key concept of legal and constitutionalist thought, shaped sixteenth-century literature, while this literature, in turn, transformed custom into an evocative mythopoetic »-- Provided by publisher

### **CA/GB 53 h BATE 2020**

BATEMAN, Will, 2020. *Public finance and parliamentary constitutionalism*. Cambridge, United Kingdom : Cambridge University Press. ISBN 978-1-108-47811-3. « The book surveys the history of public finance law in the UK, its export throughout the British Empire, and its entrenchment in Commonwealth constitutions. It explains how modern constitutionalism was shaped by the financial impact of warfare, welfare-state programs and the growth of central banking. It then provides a case study analysis of the impact of economic condition on governments' financial behaviour, focusing on the UK's and Australia's responses to the financial crisis, and the judiciary's position vis-à-vis the state's financial powers. Throughout, it questions orthodox accounts of financial constitutionalism (particularly the views of A. V. Dicey) and the democratic legitimacy of public finance. Currently ignored aspects of government behaviour are analysed in-depth, particularly the constitutional role of central banks and sovereign debt markets »-- Provided by publisher

BREACH, Lindsay, 2020. *Nevill's companion to the Trusts Act 2019*. Wellington : LexisNexis NZ Limited. ISBN 978-0-947514-61-7. « This companion is a commentary on the Act to guide practitioners and students. It will canvass the Act in a simple section by section format, with commentary. The reader will be advised as to changes to the law and its implications, or whether the Act preserves existing practice. It is intended that the companion is written in plain English, be comprehensive, and most important, be an easy-to-use to use reference. The release of a companion text to the Act provides practitioners with an immediate commentary on the law under the trusted and authoritative brand of the Nevill's series. This companion to the Trusts Act 2017 is intended to be read alongside Nevill's Trusts, Wills and Administration, 12th ed, (Lexis Nexis 2016). » -- Provided by publisher

HERZOG, Don, 2020a. *Sovereignty, RIP*. New Haven : Yale University Press. ISBN 978-0-300-24772-5. Social order requires a sovereign: an actor with unlimited, undivided, and unaccountable authority. Or so the classic theory says. But without noticing, we've gutted the theory. Constitutionalism limits state authority. Federalism divides it. The rule of law holds it accountable. In vivid historical detail-with millions tortured and slaughtered in Europe, a king put on trial for his life, journalists groaning at idiotic complaints about the League of Nations, and much more-Don Herzog charts both the political struggles that forged sovereignty and the ones that undid it. He argues that it's no longer a helpful guide to our legal and political problems, but a pernicious bit of confusion. It's time, past time, to retire sovereignty

VIÑUALES, Jorge E. et ZIMMERMANN, Jens, 2012. *Foreign investment and the environment in international law*. Cambridge : University Press. Cambridge studies in international and comparative law [94]. ISBN 978-1-107-00638-6. « Conflicts between foreign investment law and environmental law are becoming increasingly frequent. On the one hand, the rise of environmental regulation poses significant challenges to foreign investors in several industries. On the other, the surge in investment arbitration proceedings is making States aware of the important litigation risks that may result from the adoption of environmental regulation. This study of the relationship between these two areas of law adopts both a policy and a practical perspective. It identifies the major challenges facing States, foreign investors and their legal advisers as a result of the potential friction between investment law and environmental law and provides a detailed analysis of all the major legal issues on the basis of a comprehensive study of the jurisprudence from investment tribunals, human rights courts and bodies, the ICJ, the WTO, the ITLOS, the CJEU and other adjudication mechanisms »-- Provided by publisher

BANIA, Konstantina, 2019. *The role of media pluralism in the enforcement of EU competition law*. New York : Institute of Competition Law. Concurrences PhD Theses. ISBN 978-1-939007-85-8. « In an era of communicative abundance, consumers can access content anytime, anywhere and on any digital device. Safeguarding media pluralism has never before been as essential to our democracies as it is today. What role, if any, should EU competition law then play in protecting it? In delving into this question, Konstantina Bania conducts an in-depth analysis of the economics of the sector as well as the Commission's decision-making practice regarding mergers, abuses of dominance as well as anti-competitive agreements. Combining unique theoretical and practical insights, this book showcases novel tools for competition law enforcement to protect quality dimensions of competition and consumer welfare in media markets where consumers increasingly pay with their attention or data rather than money. This book is a must-read study for all scholars, competition authorities and policymakers interested in the question of how competition law can apply in such a manner that antitrust and merger assessments do not disregard non-price concerns such as privacy or diversity »-- Provided by publisher
